

Mobile Pump System

Submerged drainage pump system

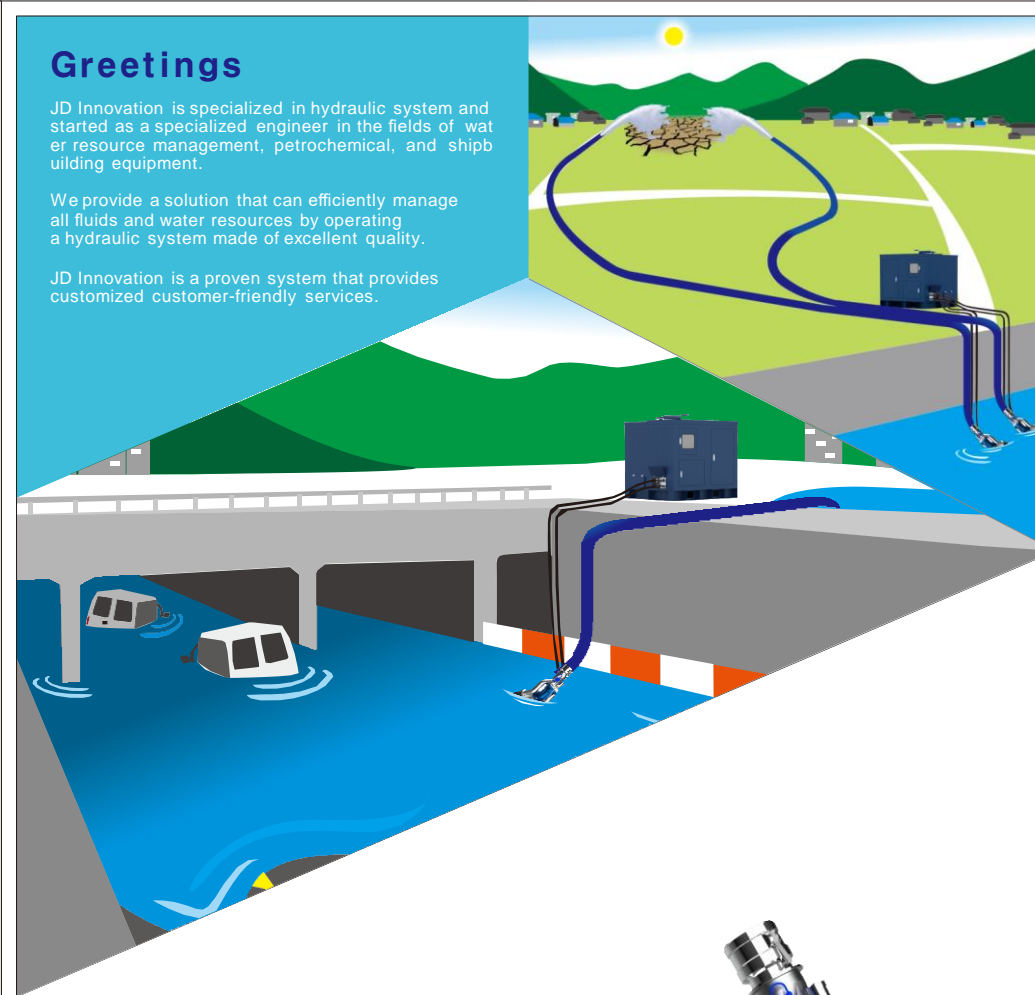

Compact
High performance
Versatile

Greetings

JD Innovation is specialized in hydraulic system and started as a specialized engineer in the fields of water resource management, petrochemical, and shipbuilding equipment.

We provide a solution that can efficiently manage all fluids and water resources by operating a hydraulic system made of excellent quality.

JD Innovation is a proven system that provides customized customer-friendly services.

Hydraulic motor driven pump system

- Less than 10% of the size and weight of an electric driven pump
- Processing various kinds of fluid
- Does not cause electric shock
- Does not require a starting current
- No failure caused by foreign particles
